## Information

Manufactured from galvanised steel to BS EN10346.

Catnic Timber to Timber Joist Hangers are designed with a 50mm bearing surface and pre-punched side gussets to allow nail fixing into timber joist. Use either Type A or Type B fixings in all pre-punched holes (Type A, 3.75mm x 30mm sheradised square twist nails for manual fixing, Type B, 3.75mm x 35mm sheradised square twist nails for nail gun fixing). When used in loft conversion applications where the hanger extends below the supporting beam, a maximum drop of no more than 75mm is recommended.

**Note:** Manufactured from galvanised steel to BS EN10346.
